HONGRONG, MARCH 24TH, 1888.

Elentren months ago a roving Commission was disputched to investigate and repor upon the condition of Chinese emigrants in the countries to which they have gone. paternal care for the welfare of the subjects of the Emperor abroad was the supposed motive for the appointment of the Commission. In his recent memorial to the Throne on the subject the Viceroy CHANG CHIH-TENG states the motive very explicitly. He had, in conjunction with the Minister Chune YIN-YUAN, submitted a memorial with referance to a plan " to raise funds at the different foreign ports whose Chinese are congregated, for the purpose of constructing ships of war to protect our subjects abroad. and the Commission was appointed "to make careful investigations into the question of establishing Chinese Consulates, and raising funds for war-ship construction.". The Commussion has now thade its report and t Viceroy in commenting on it in his memorial says amongst other things that " in the port of Manila the Chinese merchants are both necessary for the Government to advance bny funds, and this will be repaid at the end of the year out of the fees collected. From the made on the national funds, but all the working expenses of the consulate, including out of the fees. Should there be a surplus balance of the fees, it can be reserved as a to be specially used for the protection of our subjects abroad." The establishment of Consulates at other places is recommended, but particularly directed. Doubtless CHANG CHIHhonest concern for the welfare of his connactuating motive for the recommendations he has made is, we suspect, a desire to make the Chinese abroad contribute to the Chinese out of which in the first place the expenses of the Consulate will be defrayed, and the balance is to be used for building men-ofwar. The fees are to be derived from " re-

gistration, the issue of invoices, etc." As the Chinese see that Foreigners in China have to register themselves at their respective consulates, and have to pay a fee on doing so, it is not very surprising that in a proposal to establish Chineso consulates abroad this means of raising a revenue should be seized on with avidity. It is so 29th inst, at 9 p.m. convenient, so simple! The fee may be fixed at any amount, or varied according to railway has, the Courrier d'Haiphong says, been the exigencies of the situation, and suitable distinctions may be made between the Chinese equivalents of our terms "Gentleman" and " labourer," so as to get very effectively we are informed, unfortunately fallen through. mention. In the case of foreigners in China the registration fee is objected to on principle, but in practice the exection is so triffing that the grievance hardly ranks ing the proposed movements of the Company's above a sentimental one. In the case of a steamers during 1888 on the routes from England squeezing nation like the Chinese, however, it is to be feared it would be far otherwise, The Chinese Times, in an article on the memorial, says:- It is easy to define how it was that the objection to the establishment of Chinese Wise at the Magistracy, and remanded till Mon-Consulates arose, but to a great extent the day next. reasons once in vogue have been abated, and probably even do not exist now. The right usages are now so well known that new comers who succeeded old servants of China abroad get, behaviour to be observed, the traditions of intercetiree, and the penalties for misconduct; that, practically, all goes well." our contemporary can suppose the objections

which have been unged to the appointment of Chinese Consuls have disappeared it is difficult to imagine, in face of the avowed intention to use the Consulates as machines for the collection of taxes for the support of the Navy. We have, moreever, the case which occurred at Singapore during the Pronco-Chinese war, when an attempt was made to levy through the Consul a contribution from the Chinese in the Straits Settlements. The matter was con- | thorities always sit in state while the envoys are sidered of sufficient importance to call for a formal remonstrance from the Straits Government. If the right were conceded to the Chinese Government to imposed registration fee on Chineso abroad there can be no doubt that it would be exercised, especially at a crisis like that of two years ago, to an extent though he was blamed for this by those who that would impose serious hardship and in- | heard of its'" justice on those subject to it. The amount of the registration fee imposed on British Review (being No. 4, Vol. XVI) came to hand subjects in China is fixed by the Execuand it thight at my time be from \$5 to \$500, so far as legal impediment is concerned; but if an attempt to so raise it were made an agitation would ddressed "The Editor," and those on business "Tho be set on foot to which the Government would very speedily have to bow, With the Machina. One Phase of Chinese Superstition, Chinese it is otherwise. They have no House Editor, not for publication, but as evidence of good of Commons in which to ventilate their grievances, and the officials have a very handy way of enforcing compliance with their demands by threatening the infliction of vicarious painishment on the relatives of reguerats whom they may not be able to reach in person. If the Chinese abroad the number.

were subjected to a Consular registration

for there would be practically no limit to the

exictions they would have to pay...

There is, however, another view of the matter. Chang Chin-tung takes his stand on a question of right, and puts forward the argument "that in conformity with the provisious of international law, whenever a state nominees, for which there are six prizes. is privileged to accredit a diplomatic representative to the court of another independent state, she can also send Consular officers to the different ports of the same state.' To this there can be no possible reply, if China is accorded full rights as a treaty power in the comity of nations. Our Tientain contemporary puts the case thus; - " If Spain and Holland should refuse to permit the establishment of Imperial Consulates, China would have clearly the right to require that the Envoys and sulates of these two Treaty Powers China by Mr. Parker finds place in the Chin should be withdrawn from the Empire." Hitherto "the full rights of a treaty power 5.300 king (of 100 me each). These are the in the consity of nations" have not been conceded to China, nor can they be so long as she remains a semi-civilized power. THE CHINESE INSURANCE COM-PANY, DIMITED.

The seventeenth ordinary meeting of the above Company was held yesterday, to receive the report of directors, together with the statement of accounts to 31st December, 1887. There were present :— Mossrs, St. C. Michaelson (Chairmau) Hon. C. P. Chater, F. Dodwell, J.B. Elius, (Directors); S. J. Danby, J. Goosmann, G. von Wille, A. E. Vancher, A. S. Cohen, J. C. da Roza, A. O'D. Gourdin, and S. J. Gower (Secretary) The CHAIRMAN said-Gentlemen, the Report has been in your hands for some time, and with your permission we will take it as read. At the last annual general meeting my predecess; r in the chair took the opportunity to express cheerful hopes with regard to the favourable development of the Company's affairs, and it is with a much more regret, as clearly pointed out in the report; that the Directors have to appoint the heavy losses that have arisen out of the winding up of the working account of 1886. The losses 1887. I regret to say, have likewise been nretty heavy, as you will see in the accounts, but it may be housed that the final winding up may be better. However, it must not be overlooked, that the period under review has been a very trying one to many Marine Insurance Offices, owing, in the first place, to, an extremely keen competition at reduced rates, and secondly, to an exceptionally great number of disasters and consequent heavy losses. The steamer Sea Gull, of which this Company owned about one third, was lisposed of in January of this year, and the balance, as shown in the report, represents the net proceeds realized. There will be no more expenses with regard to this item, and your Directors are doing their best, to reduce the other expenses of the Company as much as possible are herded, by instituting what is practically a and trust that the results of their labours in this investments of the Company, both here and in London, are good, and stand in the books at amount. This is the principle on which, when much lower than their present value. It is wit great regret that I have to draw your attention to the deplorable deaths of two of my colleagues. Mr. Lee Tuck Cheung and Mr. J. A. dos Remedios, in whom we have lost two valuable members of the Board; and also the death Mr. L. Hauschild, who for long years was one of the auditors of the Company. It is corrious that so little attention has been paid by the Press of England to the burning mostion which is at present agitating the people of Scandinavia. It is not exaggerating matters to state that the country is on the verge of civil war, the nation being divided into two hostile sections, the question at issue being whether nolveramy shall be recognised as a logal institution. The Liberals, under M.
